

NeelBlue Technologies | Your IT Partner

NeelBlue Technologies provides IT consulting and technical expertise to all its clients across the globe. We focus on CRM, Data Integration and BI (Informatica), Application Development (Java/Microsoft Technologies) helping our clients increase quality and efficiency of their IT operation while reducing price and risk in software development, deployment and support.

Who We Are?

Neelblue technologies is committed to delivering a technology value proposition that positively impacts our customer and to helping you sustain your front office technology investments. Simply stated, our clients get the highest quality of services, at the most affordable price, where risk is continuously assessed and mitigated

We offer our clients experience, expertise, and innovation with offices in the Orange County California and Hyderabad, India.

We are your partner in addressing the unique challenges faced by your both business/IT operation. Our list of service offerings is impressive and growing. We can help with:

- Salesforce.com consulting
- Informatica Platform consulting
- Application Development consulting

And we are not done. We are constantly looking to add the latest technologies that will benefit our clients and help them with winning solutions to challenging problems
